AMFU,CAFU,DDFU,NHFU

HCA22T360

HBR

9/9/2022

Wow, look at the spread on this fellows data, calving ease coupled with low birth and growth in the top 10% of the breed but still tapering off so the progeny will be easy to finish. His dam, Blackbird just keeps delivering, she has bred us our sire Kernal K72, and she has had 12 natural calves (set of twins last year). Plenty of longevity here.
